2:1 Complex Healthcare Support

The Libertatem Healthcare Group was established to provide the very best levels of care and support for clients who have sustained personal injuries as a result of accident or medical negligence.

The senior management team has over 25 years combined experience in the provision of industry leading care and support packages and put our clients independence at the very centre of everything we do.

Operating on a national basis Libertatem Healthcare Group have the capabilities to provide your clients with the care and support wherever they are located.

Our Philosophy

Libertatem Healthcare Group's philosophy is a simple one:

Our client's **Independence** is key to every decision we make.

Communication is vital to achieving the optimum outcomes.

Our **People** are our biggest asset.

Acquired & Traumatic Brain Injury

Our role is to work in Partnership with you as case managers to support your client to live as independently as possible as they come to terms with the Physical, Cognitive, Emotional and Social changes they are experiencing post injury.

Libertatem Healthcare Group specialises in the support of personal injury clients with acquired or traumatic brain injuries.

Our support packages can be engaged at any stage of your client's rehabilitation journey from point of first discharge home onwards.

Libertatem's highly skilled and experienced support professionals will be key in accompanying your client along their rehabilitation pathway in 5 main areas:

- Assessing Need
- Supporting
- Communicating
- Evidencing
- Monitoring

Specialists in Brain & Spinal Injury

Spinal Cord Injury

Libertatem Healthcare Group specialises in the support of personal injury clients who have suffered a spinal injury.

Our Qualified Nurses, Healthcare Assistants and Support Workers have the specific skills tailored to meet the needs of the Individual and are able to provide a wide range of support at home and in the Community.

A strong focus on continued staff training and development is central to our pursuit of excellence in all aspects of spinal injury care.

In addition to annual mandatory training, as part of our spinal injury service, we create a bespoke training course based on the actual needs of the individual, examples of these are:

Bowel Care,

Cough Assist,

Autonomic Dysreflexia,

Ventilation.

Suctioning

Training and competency assessment is completed in a classroom environment and in the client's home on a 1:1 basis for each clinical task.

Specialists in Brain & Spinal Injury

Other Clinical conditions

At Libertatem Healthcare Group our multi-skilled and flexible Care and Support Staff have the ability to work with a variety of clinical conditions.

Our Care and Support packages are designed with the Adult or Child at the centre of the package allowing a bespoke service covering nearly all mental, clinical and physical conditions, for example:

- Cerebral Palsy: Spastic, Dyskinetic, Ataxik
- Home Ventilation and Respiratory Support
 - Renal Care
 - Stroke
- Motor Neurone Disease
- Multiple Sclerosis (MS)
 - Epilepsy
- Low self-esteem/confidence
 - Depression

We are able offer support staff to act as a 'Buddy' or Registered Nurses to deliver more critical care and everything in between.

Board of Directors

Graham Pope

Dan Johnson

Karen Hodgkinson

Graham Pope – Managing Director

Having had a highly successful career spanning 15 years in the Recruitment industry in the UK and Republic of Ireland. In 2011 Graham transitioned into the Healthcare sector working for the one the country's leading Healthcare Providers. It was in this role that Graham designed and developed services solely focused on achieving the optimum rehabilitative outcomes for personal injury and medical negligence clients. Graham guided the organisation in successfully delivering in excess of 250 care and support packages to the ABI and Spinal Injury market as well as working with many children with Cerebral Palsy and their families.

Dan Johnson - Director

After 11yrs working in the healthcare sector, Dan has an excellent reputation and proven experience in providing high quality services to clients and other health professionals in multiple markets.

He has an in-depth knowledge and a wide-range of experience in all aspects of the healthcare market from social care to complex clinical care, specialising for the last 6yrs with clients who have sustained personal injuries as a result of accident or medical negligence.

Karen Hodgkinson—Clinical Director

Karen has been a qualified registered Nurse for 23 years and has a wide experience of working in both the NHS and the Independent Healthcare sectors, as a staff nurse and then as a nurse manager.

Having spent her formative years in a variety of acute NHS settings, she has developed a depth of clinical expertise and knowledge that enables her to care for both adults and children.

The last 8 years have been spent predominantly in the independent healthcare sector overseeing the management and implementation of both domiciliary and complex healthcare packages for individuals with wide range of healthcare needs.

Communication

Communication - Is vital in achieving the optimum outcomes for our clients. Having worked with Case Managers and Litigation Teams for a number of years communication is the single largest contributory factor in achieving successful outcomes.

Libertatem Healthcare Group achieve this not only by the way our support teams submit “real time” daily record forms accessible by all parties, but also in the way the management teams advise, update and involve our customers at every step of the process.
